

Modern Foreign Languages - French at Newbold School

French is taught in all year groups from year 3 to 6. We aim to create enthusiastic learners with positive attitudes towards learning a language. The skills, knowledge and understanding they gain will make a positive contribution to their understanding of their own culture and that of other people.

Through a variety of teaching and learning styles we aim to teach the children a range of French vocabulary and to encourage them to speak with increasing confidence, leading them to be able to hold short conversations in a variety of everyday situations. Simple vocabulary and grammar is used by the children as they begin to write simple phrases and sentences in French.
